Child Care Quality Rating and Improvement System for Santa Barbara County

Parental Opt-Out of Annual Child Health Screening

The first 5 years of life are very important for your child because this time sets the stage for success in school and later in life. During infancy and early childhood, your child will gain many experiences and learn many skills. It is important to ensure that each child’s development proceeds well during this period. A Physician’s report is a pre-admission health evaluation required by California Department of Social Services, Community Care Licensing. However it is optional to submit it on an annual basis.

Please mark the space below to indicate whether or not you will submit a Physician’s report to the child care program on an annual basis.
